6. Summary of Project Challenges. (Space will expan	nd to fit your text.)
One of the challenges was taking over this project in midstra were done in a timely manner (2 months). Then the Hartleber the farm 6/18/10 with Chris and Jamie Hartleben discussed w understanding of what additional steps were needed to be ac enforcement conference on 11/4/10, a request for an extension Adm. Code. The enforcement conference was an important sholding one can do and some need more than others. Having	eam after Ron Ostrowski retired. The interm steps to reduce the discharge n's had personal issues that were more important. Casey Jones and I met on hat was yet to be done and the associated timeline. Communication and complished in the required time frame did not go as I expected. This led to an on of the grant period and a request for variance to s. NR 153.15(2) (e), Wis. step in the process to get where we are today. There is only so much hand go the DNR's presence throughout the process is important. I know the high but if possible I would recommend having additional site visits scheduled
